

Impact statement Review 2022/23

Our Sport Funding Premium of **£17,160** has enabled us to continue our year on year development to us successfully achieving our task of maintaining the **School Games Gold Kitemark** awarded by YourSchoolGames.

As a result of our funding, our children have accessed an enhanced experience of sports and outdoor activities alongside 2 hours of school curriculum entitlement for our KS2 children. This has supported us in meeting our schools objectives and the government's 5 key indicators of successful spending of Sports Premium funding.

Following our Impact Statement Review, we can report:

- Funding has continued to be used for the lease and maintenance of our school minibus. Not only have we been able to save on a large amount of transport costs on hiring private minibuses to attend events, but due to the constant availability of a minibus on site, we have been able to attend even more competitions, sporting festivals and events in the community.
- We continue to buy into the Salford Sports Partnership and Irlam and Cadishead Cluster. This gives our school access to other local inter-competitions and ongoing CPD for PE lead.
- Coaches and PE lead have delivered a staff meeting to all staff introducing the new PESSPA curriculum and discussing curriculum outcomes, assessment and adaptive teaching in PE.
- We have purchased a variety of playground equipment for children to be able to take part in sports that they have experienced in PE lessons. We have purchased tennis equipment, bats, skipping ropes, basketballs as well as netball posts and bibs.
- We have continued to use external, highly experienced coaches to further increase the range of sports offered and to ensure that children are accessing consistently outstanding PE sessions. Funding is also allocated for coaches to provide our staff with weekly CPD, through our mentoring programme whereby coaches teach alongside staff and offer suggestions on how an activity is delivered and tailored to each individual child.
- We have also used external coaches to further increase the number of PE sessions taught weekly. We were careful to ensure that we linked with organisations that were able to provide our staff with CPD (continued professional development) I.e.- Beth Tweddle Programme.
- Our funding has been used to provide some of our children with leadership opportunities in PE through the Manchester United Foundation Programme.
